GUIDE 02 · HOW MEFIT WORKS

SUPERSETS, DROPS & CIRCUITS

What A1, A2, giant sets and drop sets mean in your plan.

SUPERSETS (A1 / A2)

Do A1, then go straight into A2 with no rest. Rest after A2, then repeat for the number of sets. The ★ star set is always A1.

GIANT SETS (B1 → B2 → B3)

Three exercises back to back, then rest. Keep moving between them – that's where the burn comes from.

CIRCUITS

A short finisher done for rounds: C1 → C2 → C3, rest, go again. Push the pace but keep your form.

DROP SETS

On the **last set only**: finish your reps, drop the weight by about 30% and go again straight away until you can't do another good rep. Machines and cables only – never dumbbells or barbells.

ONE-STATION RULE

Every superset uses one machine or cable stack plus kit you can carry over – dumbbells, a bench, a plate. You'll never need to hold two machines at once.
