GUIDE 04 · HOW MEFIT WORKS

YOUR GYM KIT

What to bring – and what we've got covered.

BRING

Water bottle · small towel · trainers with a flat, grippy sole · your phone charged with HubFit open.

WE'VE GOT

Plate-loaded and pin-loaded Pulse machines, cable stacks with rope, bar and ankle-strap attachments, dumbbells, benches, barbells, a landmine, sleds, air bikes, treadmills and stair climbers.

YOU DON'T NEED

Bands, straps, belts or anything else for your plan. If an exercise ever needs extra kit, your coach will tell you first.

BEFORE YOU START

Check the workout banner and day name, warm up for 5 minutes, then work top to bottom through the list.
